 Abilash-19 |  Abilash S |  abilash-portfolio.web.app |  abilash.profacc@gmail.com |

SUMMARY

Highly motivated fresher seeking a frontend development role to leverage expertise in React and Next Js and passion for crafting beautiful, user-friendly UIs. Driven by problem-solving and a love for learning current technologies to contribute meaningfully and continuously evolve as a developer.

PROJECTS

E-Commerce API Dashboard

MERN Stack developer

Built an API with CRUD operations using Next.js. Created an intuitive dashboard to display API data, ensuring seamless communication between the frontend and backend for real-time updates. Tech stack included Next.js, MongoDB, and Tailwind CSS.

React Developer Portfolio

React Developer

Developed a portfolio website using React.js with Tailwind CSS for styling, implementing dynamic routing to improve user experience, with the help of various npm packages.

Crypto Times

Web Developer

Developed a static crypto news website using HTML, CSS, and JavaScript. Integrated Cryptocompare's API for timely and accurate retrieval of up-to-date crypto news data. Tech stack included HTML, CSS, and JavaScript.
